*General Hawley—The attached is from the State Of Florida regarding our Notice regarding HSBC and their ongoing issues. I think we can all agree that the response from the State Of Florida is completely different than the Missouri response. Albeit, Ms Bondi is a member of of the “49 States Agreement” oversight committee, they seem more engaged to the concerns of the issues. At this point, the only question we can ask ourselves is, are we living in the wrong State.? We certainly hope not.*
